

Apps For Math

Icon	Title	Description
	Algebra Touch	Practice Algebra by dragging, tapping, and drawing on you iPad. Students can switch between lessons or generate practice questions.
	Calculator HD	This calculator is a combination of a scientific and original calculator with the option of a variety of themes.
	iMathematics	This app includes over 700 formulas, attractive interface, 8 different solvers and calculators.
	Globe Convert- Currency and Units Converter	Whether it be temperature, pressure, currency, or any other unit of measurement, this app will convert to over 190 commonly used currencies and 80+ units of measurement.
	Counting Money	Using life like images of coins and bills, students will build their money counting skills through drills and practice.
	Chalkboard Multiplication, Addition, Subtraction, Division	A math learning game for students ages 4-10. Students are timed and the quicker the answer, the higher the score.
	Math Evolve	For ages 6 and up, but challenging even for adults. Fun activities make this the holy grail of entertainment math apps!
	Math Ref	Gives students a sample (600) of over 1400 helpful formulas. Buy the full version for 1.99 to have access to them all. Tips and examples included for each formula.
	Rocket Math	Build your own rocket and fly it to space with this fun app that allows students to practice math problems in a fun and exciting adventure.
	Pizza Fractions	Offers a simple, yet effective, practice for students who are learning fractions.
	Number line	An educational game app to help students learn about fractions, percents, and decimals by ordering them on a number line in the correct sequence.
	IToouch Elementary	A variety of 3-5 th grade level practice problems in a fun and engaging app.
	Math.	Get the exact math lessons you need with your very own personal teacher. Over 400 lessons including Pre-Algebra, Algebra, and Geometry.

	Times Tables Quiz	How many math problems can you solve in a row? What if it matters? Train yourself and challenge your friends.
	Cloud Math	Great app for budding math geniuses! For preschool through elementary school students to use as a fun tool.
	Math Motion Hungry Fish	Feed the fish while practicing math skills. A fun game for elementary school students to work on speed and solving math problems.
	123 Animals Counting	Great game for nonreaders. Settings allow for audio driven instructions. Virtual pets earned for completion of levels. A motivating game that allows for number recognition and counting.
	Cute Math	Fun animations and cute voices make learning math fun. Geared toward kids 6 and under.
	iMath Pac Graphing Calculator	The best free calculator for upper level math students.
	Math Blaster HyperBlast 2 HD	Hop on your HyperCycle and discover math facts like you've never seen them before!
	Math Magic	Math Magic uses a combination of your choice of vibrant colors, simple interface and a reward system of stars to encourage and teach kids between the ages of 3 and 8.
	MathSpin3	As a parent, teacher, and tutor this application allows your students to learn interactively through random spinning dials and solving math problems with timed drills varying between 1 and 10 minutes.
	Telling Time	Instead of giving the user multiple choice, Telling Time lets the user input the time by the hour, ten minute, and minute. There are two game modes, practice and quiz.
	Shapes	Learn SHAPES and more with fun games, quizzes, flashcards and puzzles.
	Geoboard	The Geoboard is a tool for exploring a variety of mathematical topics introduced in the elementary and middle grades. Learners stretch bands around pegs to form line segments and polygons and make discoveries about perimeter, area, angles, congruence,

		fractions, and more.
	Addition and Subtraction For Kids	This math app is for parents whose kids are in 1 or 2 grade or in the age group 3-6. Learn addition and subtraction underwater with fishes. Small kids can easily practice their math skills - addition and subtraction - with this educational game.
	Tangram Mania	While improving their motor skills by placing piece onto the correct color shape, your children will enjoy fun animations and sound effects.
	Counting Money	Counting Money is an app designed to help people of all ages count money. Counting Money can also be used as a brain training exercise for adults and anyone else looking to improve their skills at counting money.
	Pattern Game	This is a free and fun iPad app that generates unique picture pattern games. Not a super fancy app, but offers practice with patterns.
	Splash Math, Grade 2	Splash Math is a fun and innovative way to practice math. With 13 chapters covering over 180 math skills and an endless supply of problems, it is by far the most comprehensive math workbook in the app store.
	Chocolate Chip Cookie Factory Place Value	In this game, players learn place value concepts and practice math facts as they count, add, subtract, multiply, and divide multi-digit numbers on their way to a global cookie empire. Common core standards addressed include: 1.NBT.2, 1.NBT.4, 1.NBT.6, 2.NBT.1, 2.NBT.5, 2.NBT.7, 2.NBT.8, 3.NBT.2, and 3.NBT.3
	Introduction to Rounding	This app actually TEACHES math! Not just another quiz or worksheet app, this app shows how AppTutor teaches and interacts with students to truly grasp the subject at hand. Includes lessons, tools, printable worksheets and more! Great for grades 2 thru 5.
	Math Pentagon	Math Pentagon apps empower Math teachers in 1:1 iPad program for differentiated instruction, early intervention, frequent progress monitor, and intensive training provision for students who need remediation.
	Math Snacks HD	Now the Math Snacks videos are available in HD for your iPad, complete with learner's guides, teacher's guides, and comic book transcripts for printing! Now you can take the videos on the go, or use them in classrooms without an internet connection.
	Lobster Diver	* Ideal for middle school and upper elementary students, grades 3-8. * Addresses number and operations standards established by the National Council of Teachers of Mathematics.

	Free Graphing Calculator	Just what it says: free graphing calculator
	Khan Academy	Educational videos for students to view to reinforce math or science skills.
	Math Racing	3D Math Racing is the fastest way to learn math in the app store! In this crazy 3D racing game, you get a speed boost for every math problem you solve!
	Algebra Champ	Designed for grades 6 - 8, Algebra Champ provides practice solving straightforward, single variable linear equations in an entertaining, game-like environment. Questions are randomly generated and presented in rounds of five. Answers are manageable integers (-10 to 10) and presented as multiple choice.
	Math 7	Here's a fun game to practice your middle school math skills - it's time to get rid of your old flash cards and worksheets.
	Painless Fractions	The Barron's Painless book series just took Fractions to the next level, fun!
	3D Protractor Free	A super tool for you to measure all kinds of angles in the 3D space by moving and rotating your iOS device or using the camera. It is able to measure the angle of any two lines in the space, slope angle measurement, dihedral angle measurement, line-face angle measurement, and camera angle measurement. The full version can be purchased for \$2.99.
	Math Solver	Math Solver helps you solve mathematical equations including linear equations and quadratic equations. It shows you the answer to the problem, simplifies expressions, and solves literal and radical equations, factors, and graphs equations as well as shows the steps used in the solution.
	Panther Math Paper	The principles of UDL are integrated into this interface to allow people to work independently on "digital paper", especially those individuals with motor challenges. Includes foundations to learn simple arithmetic, and the power to do complicated equations. Includes capability to save and email work.
	Math Board	This configurable math app focuses on the four basic operations. It encourages students to solve problems by providing multiple answer styles, as well as a scratchboard area where problems can be worked out by hand. It also has a Problem Solver feature, which walks students through the steps required to solve problems.
	Factor Samurai	The specific math concepts this app covers are multiplication and the identification of prime numbers. The object is to slice numbers into their prime, but to not actually slice the prime numbers. Three difficulty levels are available – grasshopper (easy), apprentice (medium), and master (hard).
	Math Drills Lite	Graphically rich and fun environment allows a single student to learn basic math skills in addition, subtraction, multiplication and division. Explore solutions to problems using number lines, wooden blocks, facts and hints. Solve nine-times problems using your fingers!
