

Apps For Science

Icon	Title	Description	Price
	Touch Physics	Draw shapes with a crayon that come to life, and watch them interact with the wheel, causing it to move according to physical laws. When it reaches the star, the level is complete. Fun and challenging game applying physical science.	1.99
	Nasa App	The first Nasa app that invites you to discover a wealth of NASA information right on your iPad.	Free
	Molecules	Molecules is an application for viewing three-dimensional rendering of molecules and manipulating them using your fingers.	Free
	Video Science	A growing library of over 80 hands-on Science lessons that are great for home and the classroom.	Free
	Nova Elements PBS	Play a game, interact with the periodic table of elements, or watch the two-hour program, "Hunting Elements."	Free
	3D Brain	Use your touch screen to rotate and zoom around 29 interactive structures. Discover how each brain region functions, what happens when it is injured, and how it is involved in mental illness.	Free
	Science 360	The National Science Foundation provides easy access to engaging science and engineering images and video from around the globe and a news feed featuring breaking news from NSF-funded institutions.	Free
	Brainquest	One hundred free questions for each grade level k-5 involving all kinds of topics, including science. Several versions available, more questions available for purchase.	Free
	Language Central for Science	Make studying vocabulary terms fun and engaging with Pearson' Language Central for Science App with interactive flash cards and games to cover Life, Earth, and Physical Science.	Free
	Easy Dissection	Examine the various organs and structures most commonly identified in the high school Biology curriculum.	.99

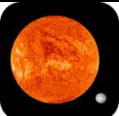

The Florida Diagnostic and Learning Resources System is funded by the State of Florida, Department of Education, Division of Public Schools and Community Education, Bureau of Exceptional Education and Student Services, through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B; IDEA Part B, Preschool; and State General Revenue funds.

	Build A Bird	Students go through the motions of creating a bird while learning about the purposes for the different beak, wing, and body structures and how they have adapted overtime to fit the environment.	Free
	Project Noah	Students can share wildlife encounters and help document our planet's biodiversity.	Free
	Science Books	A collection of Science Books (BTN). Topics include physics, chemistry, geology, and biology.	Free
	I Learn with Poko: Seasons and Weather	Three fun games where Poko helps children 3-6 identify various weather situations in various seasons and the appropriate clothing and activities that go with these weather situations.	Free
	Middle School Science 8 th Grade	Here's a fun way to review matter, geology, astronomy, and weather. Other quizzes may be purchased. Teachers have the option of having scores tracked on a website.	Free
	Painless Earth Science Challenge	Test your knowledge and then your skill with this challenging arcade game.	Free
	Weird But True	National Geographic Society brings over 3000 interesting facts and vivid pictures.	1.99
	Khan Academy	Allows you to learn almost anything for free through lectures and videos.	Free
	Brain Pop	Daily videos and activities address difference topics. Purchasing the app will allow for choice in the hundreds of topics covered using animation and interactive quizzes.	Free thanks to ESOL User Name: esolig Password: brainpop
	A Life Cycle App	Appropriate for ages 2-10, various cycles in nature are explained and illustrated.	.99
	The Magic School Bus	Using books from the PBS series, the Magic School Bus explores a variety of topics.	5.99-7.99
	Cell and Cell Structure	A wonderful middle school app to illustrate science at the cellular level.	2.99

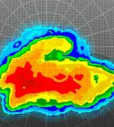

The Florida Diagnostic and Learning Resources System is funded by the State of Florida, Department of Education, Division of Public Schools and Community Education, Bureau of Exceptional Education and Student Services, through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B; IDEA Part B, Preschool; and State General Revenue funds.

	Body Organs 4 Kids	Location, fun facts, and description of functions, as well as various views of each organ help students become more familiar with how our bodies work.	.99
	Orbits	Have fun learning how our solar system works!	Free
	Where do I live?	This game reviews many animals and the multiple biomes they live in through an interactive game.	Free
	Astronomy Picture of the Day	Developed in partnership with NASA, Astronomy Picture of the Day for the iPhone/iPad brings the vastness of space right into your hand. Browse through decades of high resolution NASA space photos hand selected by NASA astronomers. Jump to photos by date, save them to your photo roll or share them friends.	Free
	Planets	3D guide to the solar system for aspiring astronomers	Free
	Science Glossary @Visionlearning	The Glossary includes definitions for several hundred scientific terms and mini-biographies of dozens of key scientific figures. Technical terms within each glossary definition are linked to related definitions, providing seamless navigation through the Glossary. And many terms are linked to the learning module(s) where they appear on our website, allowing easy access to these science learning resources.	Free
	Sun Scale Lite	Have you ever wondered how big the Sun is, or how far it is to the nearest star? Sun Scale makes it easy for you to visualize the scale of the Solar System by scaling everything down to manageable sizes. *Additional features available for purchase	Free
	Learn About Plants	An animated experience with talking plants learning about their life cycle. Heavy accents make it difficult for some children to understand.	Free
	Nature Tap	Build your nature app. Download the free app and get instant access to 28 beautiful North American birds, each with a brilliant image, detailed range map, song/call, and description. Register your app and receive the full Insects and Spiders module, which includes 100 common species for free! Add additional nature subjects quickly and easily with in-app purchase.	Free

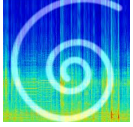

The Florida Diagnostic and Learning Resources System is funded by the State of Florida, Department of Education, Division of Public Schools and Community Education, Bureau of Exceptional Education and Student Services, through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B; IDEA Part B, Preschool; and State General Revenue funds.

	Moon	Moon is a perfect resource to help you learn about the moon. Moon constantly updates a panel of information that tells you everything you want to know about the moon.	Free
	FL Nature	Identify the birds, butterflies and flowering plants seen along the Great Florida Birding and Wildlife Viewing Trail and throughout Florida. Designed with non-experts in mind, this tool is perfect for young or novice nature lovers, visitors to Florida and more seasoned explorers. Child-friendly icons lead the user to beautiful color photographs and basic descriptions of each species.	Free
	The Rock Cycle	The Rock Cycle is an interactive story about the life of a rock. Weathered and aged, he tells his life story in this elegant poem. Each stanza is supplemented with interactive images, diagrams, and mini-games.	Free
	3D Cell Stain	Learn about the cell and all its structures using our new 3D Cell tool. Enjoy the ability to rotate the cell 360 degrees and zoom in on any cell structure. Choose from our list of cell structures to learn more about how each structure functions and relates to the other components of the cell. Dive even deeper and create your own stained cell image.	Free
	Mitosis	In Mitosis, you'll learn about the process of cell division by directly interacting with the cell. You'll have a glossary of relevant definitions at your fingertips, and you can listen to a recording that describes mitosis while you follow along in the text.	Free
	Video Biology	Thinkwell's Video Biology is the perfect companion for anyone learning or studying Biology. Taught by award-winning teacher, George Wolfe. Best for older or advanced students.	Free
	My Radar	The map has the standard pinch/zoom capability which allows you to smoothly zoom and pan around the United States and see what the weather is like anywhere.	Free
	Learn Sharks	Learn Sharks gives your child a fun introduction to a variety of sharks, including the fierce Great White Shark, and the friendly Whale Shark. Use this app to get to know what each one looks like and some interesting info about it, then test your knowledge using our quiz feature!	Free

The Florida Diagnostic and Learning Resources System is funded by the State of Florida, Department of Education, Division of Public Schools and Community Education, Bureau of Exceptional Education and Student Services, through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B; IDEA Part B, Preschool; and State General Revenue funds.

	Trees Pro HD	An ideal guide to the most common North American and European trees on your iPhone and iPad. With the built-in quiz you will also learn quickly to distinguish between different species.	Free
	Gravity HD	Isaac Newton's Gravity HD offers 7 free levels to challenge you.	Free
	Spectrum View	Spectrum is a hi-tech graphical sound analyzer, that displays a live spectrum on the screen when you play music from the radio or sing along to your favorite tune. It works by picking up sound from the microphone and then displaying it graphically on the screen.	Free
	Nearpod	-Teachers use Nearpod to share content with their students and to manage the flow of the lecture. -Students use Nearpod on their iOS devices to receive multimedia content and to participate in engaging assessment and collaboration activities.	Free

The Florida Diagnostic and Learning Resources System is funded by the State of Florida, Department of Education, Division of Public Schools and Community Education, Bureau of Exceptional Education and Student Services, through federal assistance under the Individuals with Disabilities Education Act (IDEA), Part B; IDEA Part B, Preschool; and State General Revenue funds.
